

Manage complex tiered leasing and billing

Property Lease Management (PLM) gives you a comprehensive solution to manage your real estate business functions, such as accounting, lease administration, billing, and reporting. Binary Stream offers solutions for every real estate market, with extensive success in meeting the complex requirements for retail (shopping malls and strip malls), franchises, commercial and real estate investment trusts.

- Manage all aspects of your tenant and landlord lease requirements with the robust reporting and accounting engine from Microsoft Dynamics ERP.
- Budget and report across your entire portfolio by property type.
- Easily manage lease creation and maintenance, complex escalations, CAM reconciliations, pro-rated, sales-based rent or metered charges.

The Property Lease Management advantage

Easily add AR/AP charges and associate with a specific GL account, payment term or tax schedule.

Easily escalate charges by rate schedules, Consumer Price Index (CPI), percentages, fixed amounts, or other rate drivers such as cost per square foot.

Have the flexibility to track tenant details, lease agreements, property insurance details and associated sub-leases. Track and report terms, charges and escalations.

Manage your complete lease portfolio centrally including properties, plants, and equipment.

Assign commissions and revenue sharing to each AR charge that automatically creates an AP transaction.

Accurately forecast revenues to maximize the return on your assets.
